

RET-SE-400

— THE CONVENIENT SOLAR GRINDER

The RET-SE-400 is the perfect solar grinder for smallholder animal farmers. It allows the farmer to produce its own animal feed in a very easy, economic and sustainable way.

It is composed of a solar panel of 320 watts and a battery of 30 Ah allowing the grinder to run 2-3 hours per day, cutting 600 kg and grinding 1200kg per day.

The RET-SE-400 connected with the inverter box that can also transfer its solar power to other home appliances.

RESUME

Smallholder

**Solar panel 320 W
Battery 30 Ah**

**Per day:
Running 2/3 hours
Cutting 600 kg
Grinding 1200 kg**

- **Reduce Feed Costs**
- **Reduce Energy Use**
- **Save Money**
