

# RET-SE-825

## — THE COMMERCIAL SOLAR GRINDER

The RET-SE-825 is the perfect solar grinder for semi-commercial and commercial animal farmers. It allows farmers to save the costs spent on animal feed providing an easy, economic and sustainable way to produce your own animal feed.

It is composed of a solar panel of 550 watts combined with a battery of 50 Ah allowing to run the grinder 3-4 hours per day, cutting 1800 kg and grinding 4000 kg per day.

The RET-SE-825 connected with the inverter box that can also transfer its solar power to other home appliances.

### RESUME

**Semi-Commercial  
Commercial**

**Solar panel 550 W
